

EMERGENCY CLOSING PROCEDURES

The Education Co-op of Central Texas (ACT & Connect Program / Central Office) may at times close its facilities as a result of unusual or emergency situations. When such conditions exist, the Executive Director, Mr. Ben Saage, will make the final determination to close the school/central office for a full day or part of a day, in consideration for the safety of students and staff.

If it is necessary to close the ACT & Connect Program / Central Office due to inclement (harsh, severe, stormy, snow, or ice) weather, a decision to do so will be made at the earliest possible time in order for the staff and parents of school age children to make arrangements. The Executive Director will notify the local television and radio stations of closing or delays.
